### Lubbock Power & Light Overview

#### **Mission and Purpose**

Provide Lubbock citizens with safe, reliable, and high quality electric service at the most affordable rates while being financially self-sustaining. Lubbock Power & Light provides the following services:

- Operation and maintenance of the generation, transmission, and distribution facilities of the LP&L system
- Metering, billing, collecting, and customer service of electric accounts. LP&L provides the same services for the City of Lubbock Water, Wastewater, Solid Waste, and Storm Water utilities

### **Goals and Objectives**

- Provide safe and reliable electric service at the most affordable rates
- Ensure long-term financial sustainability
- Deliver first-class service to our customers while operating with the highest code of ethics.
- Provide a safe work environment for all employees
- Enhance service delivery, service options and community goodwill
- Maintain strong credit ratings

#### Accomplishments for FY 2013-14

- Implemented a new LP&L website in order to more effectively communicate with our customers
- Redesigned the LP&L billing statement to make it more user friendly by clearly delineating the source of customer cost and historical usage trends
- Implemented a seasonal rate stabilization model that provides our customers with a predictable rate by season
- Created and implemented a net metering rate for customers that generate their own electricity in order to offset their electric usage.
- Hired Black and Veatch to assist with the 2019 power supply study

### Objectives for FY 2014-15

- Finalize the future power supply plan for 2019
- Continue engineering and design studies on the transmission loop
- Continue work on the conversion of the Xcel distribution system from 4kV to 12kV.
- Continue to work with our customers to improve communication and customer service in order to strengthen overall relations between ratepayers and their municipally owned utility

#### **Revenue Overview**

Our rate management methodology is aligned to a philosophy that smaller, more incremental rate

adjustments are the most responsible way to manage the utility and support our customers. Larger rate adjustments brought on by delayed decision-making cause unnecessary and unpleasant surprise.

- Budgeted revenues increased \$6,927,521 or 3.0 percent for FY 2014-15.
- Metered revenues increased \$12,291,977, or 5.7 percent, due to the proposed rate increase and an expected increase in natural gas fuel prices.
- Off-system sales decreased \$4,897,545, or 43.6 percent, due to the expiration of two unit contingent contracts with Xcel Energy to purchase the power produced by LP&L's generating units.

#### **Expense Overview**

- Budgeted expenses increased \$14,207,722, or 6.3 percent, for FY 2014-15.
- Compensation increased \$347,172, or 2.1 percent, due to the implementation of the compensation study and the phasing-out of CIP-funded payroll.
- Benefits increased \$10,021, or 0.1 percent, due to the changes in compensation.
- Supplies (excluding purchased power costs) decreased \$366,105, or 14.5 percent, to align closer to the historical trend.
- Purchased power costs increased \$9,336,375, or 6.2 percent, primarily due to increases in anticipated natural gas fuel costs across the industry.
- Maintenance decreased \$371,493, or 9.0 percent, to align closer to the historical trend.
- Professional services/training increased \$391,228, or 12.2 percent, to fund the consulting costs associated with the 2019 generation issue.
- Scheduled charges increased \$944,773, or 19.6 percent, due largely to increases in the budgets for water, wastewater, and data processing charges.
- Debt service increased \$1,435,725, or 8.2 percent, due to the increased payments related to the 2013-14 bond issuance.
- The franchise fee equivalent increased \$614,599, or 5.7 percent, due to the increase in metered revenues as a result of the proposed rate adjustment and higher purchased power pass-through costs.
- The payment in lieu of taxes increased \$122,920, or 5.7 percent, due to the increase in metered revenues as a result of the proposed rate adjustment and higher purchased power pass-through costs.
- The transfer to electric capital increased \$1,805,650, or 20.0 percent, based on the increase in cash-funded capital projects.

### Lubbock Power & Light Overview

#### **Capital Overview**

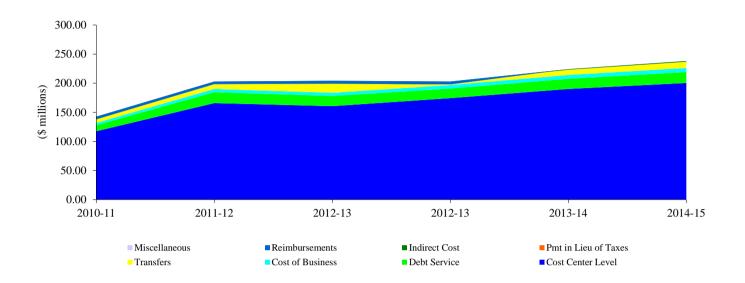

Important maintenance and repair work should be done today to avoid larger, more expensive replacement work in the near future.

- The LP&L Fund has 31 active projects with appropriation-to-date totaling \$43.3 million.
- An additional \$8.9 million is included in FY 2014-14 for the following existing projects:
  - o Padmount Transformer Repair, \$0.2 million
  - o Air Switch Replacement, \$0.1 million
  - Cooke Station Short Term Outage, \$0.9 million,
  - Massengale Station Medium Term Outage,
     \$1.3 million
  - o Substation Relay Upgrade, \$0.35 million
  - o Substation Land Acquisition, \$2.0 million
  - O Downtown Redevelopment Underground, \$1.0 million
  - O Substation Breaker Replacements, \$0.5 million
  - 69 kV Transmission Line Reconductoring, \$0.5 million
  - o GIS System Improvements, \$0.5 million
  - O Massengale Outage Long Term, \$0.4 million
  - o Brandon Outage Short Term, \$0.9 million
  - o Directional Fault Indicators, \$0.1 million
  - 15 kV System Reconductor or Rebuild, \$0.15 million
- Approximately \$23.3 million has been added for FY 2014-15, which is made up of 17 new capital projects, as follows:
  - Dispatch Control Room Upgrade/Remodel, \$0.5 million
  - 69kV Line Rebuild Coop to Slaton, \$3.0 million
  - O Oliver Substation Transformer Capacity Upgrade, \$2.5 million
  - Massengale Station Short Term Outage, \$0.9 million
  - Brandon Station Medium Term Outage, \$0.75 million
  - o FY 2014-15 Street Lights, \$0.75 million
  - Quaker Storm Water Project Feeder Rebuild, \$0.3 million
  - O Northwest Substation Feeder Circuits, \$0.2 million
  - o Indiana URD Cable Replacement, \$3.0 million
  - O Substation Perimeter Alarms, \$0.1 million
  - o FY 2014-15 Distribution Transformers, \$1.5 million
  - o FY 2014-15 Service Distribution, \$0.2 million
  - o FY 2014-15 Underground Electric, \$1.75 million

- o FY 2014-15 Overhead Lines, \$1.5 million
- FY 2014-15 Vehicles and Equipment, \$1.46 million
- o Mobile Substation, \$2.5 million
- Milwaukee Autotransformer, \$2.4 million
- The proposed FY 2014-15 capital budget for LP&L totals \$31.8 million. Cash funding totals \$10.8 million, or 34.1 percent, debt funding totals \$20.6 million, or 64.8 percent, and funding from closed projects totals \$0.4 million, or 1.1 percent.
- The LP&L Capital Program Summary can be found in Exhibit D of the Appendices. NERC compliance rules prohibit the release of any details to the public of any information that could possibly be used to plan or carry out a terrorist attack on the electric system.
